 - 2. Tiebreaker 2: The fish that was caught and registered earliest/ fastest in respect to the Qualifying Event's tournament competition hours. For clarity, Tiebreaker 2 takes into account the Qualifying Event's competition hours – if a tournament allows fishing to continue overnight, those hours will be considered competition hours and considered when determining the earliest/ fastest fish caught during competition. If a tournament requires lines out at a certain time of day, the hours between lines out and lines back in will not be considered competition hours.

- (b) Below is an example of how a winner may be calculated using the two Tiebreakers above:

Team B:
